

DISA CONTRACTS GUIDE

This year, the theme of DISA's Mission Partnership Conference is "The Joint Enterprise: Developed Through Partnership." DISA strives to be proactive in supporting our customers by establishing telecommunication and information technology contracts in advance of their needs. As you look through the following listing of contracts, you will notice that many contracts are performance-based, flexible, and easy-to-use. The staff of the Defense Information Technology Contracting Organization can assist by issuing task/delivery orders for customers, or in some cases, customers' contracting officers can take advantage of "decentralized ordering," which allows the flexibility of ordering and administering their own task/delivery orders. Either way, customers receive the services they require quickly and efficiently, obtaining the best-value solution.

Indefinite Delivery/Indefinite Quantity Contract

Contract Title/Contract Number	Description	Prime Contractor:	Period of Performance:
Data Link Service Provider (DSP) HC1013-10-D-2002	The DSP contract provides new data link and voice capabilities for Global Air Traffic Management aircraft. It supports continued expanded use of Communication Navigation Surveillance/Air Traffic Management (CNS/ATM) capabilities, data link and voice services for communications between command and control agencies, air traffic service agencies, and aircrew. In addition, these DSP service capabilities will be used to support Air Traffic Services (ATS) and Airline Operations Center (AOC) message exchanges.	ARINC Engineering Services LLC	Through July 31, 2016*
Defense Information System Network (DISN) Global Solutions (DGS) DCA200-02-D-5000 and 5001	The DGS contracts provide life cycle support management for the DISN website.	Apptis (small business) Science Applications International Corp. (SAIC) large business	Through March 31, 2013
DISN Access Transport Services (DATS) HC1013-07-D-2005 (Region 1) HC1013-07-D-2006 (Regions 3 & 4) HC1013-07-D-2007 (Region 2)	The DATS contracts provide telecommunication transport services in the continental United States (CONUS) from telephone company demarcation point (telco demarc) to telco demarc. CONUS is divided into four regions (Region 1-Western U.S.; Region 2-Midwest U.S.; Regions 3 and 4-Eastern U.S.). DATS may also provide service normally defined as inside wire between a telco demarc and a customer-defined service delivery point (SDP) at another location on the base/camp/post/station.	Region 1— CenturyLink Government (formerly QWEST Government Services Inc.) (HC1013-07-D-2005) Region 2—AT&T Corp. (HC1013-07-D-2007) Regions 3 and 4—CapRock Government Solutions (Editor's note: Now Harris CapRock) (HC1013-07-D-2006)	Through October 30, 2016*
Defense Information System Network (DISN) Network Management Support Services Global (DNMSS-G) HC1013-07-D-2023 HC1013-08-D-2000	The DNMSS-G/R Associate Support Contract (ASC) provides support services for DISN-related networks and systems, and for other Department of Defense (DOD) and Government networks and systems. The DNMSS-G/R Network Engineering Contract(NEC) provides support services associated with network and system management and other related support services for DISA and DoD Military Services and Agencies, and other U.S. Government Departments and Agencies on a global basis.	DNMSS-G/NEC, Computer Sciences Corporation, DNMSS-G/ASC: Oberon Associates, Inc	Through June 14, 2012* for HC1013-07-D-2023; Through December 23, 2012* for HC1028-08-D-2000

* Period of Performance includes all option years.

Indefinite Delivery/Indefinite Quantity Contract continued

Contract Title/Contract Number	Description	Prime Contractor:	Period of Performance:
DISN Satellite Transmission Services Global (DSTS-G) DCA200-01-D-5002 through 5004	The Defense Information System Network (DISN) Satellite Transmission Service-Global (DSTS-G) contracts provide a full range of global fixed satellite bandwidth, earth terminals and related satellite-based business and enterprise services and solutions.	ARTEL Inc. CapRock Government Solutions (Editor's note: Now Harris CapRock) DRS Technical Services Inc.	Through February 15, 2013*
Defense Information Systems Network (DISN) Transmission Services-Pacific II (DTS-P-II) HC1010-09-2000	DTS-P-II will provide the end-to-end ARINC transmission services and capabilities essential to the Defense Information System Network (DISN), DoD's consolidated enterprise level telecommunications infrastructure for the expanded Pacific region.	Verizon Business Network Services, Inc.	Through March 5, 2019
ENCORE II HC1028-08-D-2001 through 2003 and HC1028-08-D-2005 through 2027	The ENCORE II contracts provide IT solutions for activities throughout all operating levels of all customer organizations in support of all functional requirements, including command and control (C2), intelligence and mission support areas, and to all elements of the Global Information Grid (GIG).	3H Technology—SB American Systems—LB Analytical Services Inc. Iridium Enhanced Mobile Satellite Service (EMSS) HC1047-08-D-0002	The EMSS contract provides a full range of Iridium satellite and ancillary equipment to be used with Iridium services. This includes the purchase of Iridium hand-held phones, pagers, secure modules, DTCS radios, Blue Tick and ancillary equipment. In addition, the contract also provides the capability to activate or de-activate Subscriber Identification Modules (SIM) cards. Lead times are seven to 14 days.	General Dynamics C4 Systems Inc.	Through November 25, 2012*

* *Period of Performance includes all option years.*

Indefinite Delivery/Indefinite Quantity Contract continued

Contract Title/Contract Number	Description	Prime Contractors	Period of Performance:
International Maritime Satellite (INMARSAT) Services DCA200-02-D-5024 through 5028	The International Maritime Satellite (INMARSAT) contracts provide a full range of mobile satellite telecommunications airtime service, equipment and maintenance.	AOS Inc. L-3 Global Communications Solutions Inc. CapRock Government Solutions Inc. ADC of Delaware LLC O’Gara Satellite Systems Inc.	Through June 5, 2012*
Future Commercial Satellite Communications (COMSATCOM) Services Acquisition (FCSA) Multiple award schedules under GSA IT Schedule 70 Special Item Numbers (SIN) 132-54 and 132- 55 for Commercial Satellite Transponded Capacity and Fixed/ Mobile Subscription Services. Custom SATCOM Solution-Small Business (CS2-SB) multiple award IDIQ contracts and Custom SATCOM Solutions (CS2) - Full and Open IDIQ multiple award contracts.	<p>FCSA is a strategic partnership between the General Services Administration (GSA) and DISA, creating a streamlined, easy-to-use solution for all government commercial satellite communications needs. Previously, GSA’s Federal Acquisition Service and DISA awarded and managed individual satellite communications contracts. By combining acquisition efforts and better leveraging the government’s buying power, FCSA is reshaping the commercial satellite market and efficiently delivering end-to-end commercial satellite solutions to all government customers. FSCA has three service areas: Transponded Capacity, Subscription Services and End-to-End Solutions.</p> <ul style="list-style-type: none"> • SIN 132-54, Transponded Capacity: Dedicated satellite bandwidth and power in any commercially available frequency band. • SIN 132- 55, Subscription Services: Pre-engineered, existing Fixed Satellite Services (FSS) and Mobile Satellite Services (MSS) priced on a per-unit (for example, per minute, megabyte, node, location) basis, including terminals tied to a service, in any commercially available frequency band. • CS2-SB and CS2*, End-to-End Solutions: Solutions include satellite transport (bandwidth), fixed or mobile satellite service, and service-enabling components such as terminals, handsets, and tail circuits with engineering services to integrate, operate, and maintain the solution. 	Prime Contractors - SIN 132-54:	Each Schedule 70 contract is awarded for a five-year base period with up to three five-year options. CS2-SB IDIQ contract is awarded with a three-year base period with up to two one-year options.*

Blanket Purchase Agreements (BPAs)

Contract Title/Contract Number	Description	Prime Contractor:	Period of Performance:
Broadband Global Area Network (BGAN) and Legacy INMARSAT Services Blanket Purchase Agreements (BPAs)	These Blanket Purchase Agreements (BPAs) issued against GSA IT Schedule 70, SIN 132-55 for COMSATCOM Subscription Services are the follow-on contract vehicles for the Inmarsat Maritime Satellite (INMARSAT) Contracts and provide a full range of mobile satellite telecommunications airtime services.	Army BGAN BPA - Stratos Global Systems Inc. (SGSI) Air Force BGAN BPA - ADCI	Five years from date of award for each BPA*
DISN Global Services IDNX/PROMINA Companion Equipment (DICENET) HC1028-09-A-2005	The Services IDNX/Promina Companion Equipment BPA provides Promina network hardware, software and maintenance through NET Federal Inc. Promina remains the premier multi-service networking product in use by the Department of Defense. The Screen Service Creation Manager Platform provides state-of-the-art broadband switching capability for Internet Protocol (IP) and Asynchronous Transfer Mode (ATM). Also available is the ShoutIP Open Telephone Platform, which transports voice over a packet Infrastructure. The DICENET BPA supports new requirements, as well as total system upgrades.	Net Federal Inc	Through January 31, 2014
Global Exchange Services (GEX) Messaging and Data Transformation Support HC1028-10-A-2001	The GEX contract provides for technical support services for sustaining and improving the GEX capability to conduct data Integration supporting electronic business/electronic commerce (EB/EC) within the federal government.	Northrop Grumman Systems Corp.	Through June 30, 2014
ManTech Integrated Data Systems HC1-28-09-A-2008	The ManTech BPA provides a Source Selection Tool that will be used by acquisition organizations to conduct proposal evaluations in best value competitions. The Source Selection Tool is a full service capability that provides DITCO/DISA a high performance software application plus access to technical support, user training and best value process consulting. Decentralized ordering is allowed.	ManTech Integrated Data Systems	Through June 14, 2014*
Red Hat Linux Enterprise Software HC1028-909-A-2003 HC1-28-09-A-2004	Red Hat Enterprise Linux is the premier operating system for open source computing. It's sold by annual subscription, runs on seven system architectures, and is certified by top enterprise software and hardware vendors. Decentralized ordering is allowed.	DLT Solutions Inc. Carasoft Technology Corp.	HC1028-0-A-2003 – Through February 17, 2014 HC1028-09-A-2004 – Through February 9, 2014

Basic Ordering Agreements (BOAs)

Contract Title/Contract Number	Description	Prime Contractor:	Period of Performance:
TechTrend Inc. HC1028-10-G-2001	The TechTrend BOA provides for the purchase of technical support, materials and Information Technology equipment in support of the federal government. Decentralized ordering is allowed.	TechTrend Inc.	Through February 9, 2013

* Period of Performance includes all option years.
